## MANY CASES OF HOOKWORM FOUND

Department of Health Warns Profession and Public Against Disease.

APPEAL GRANTED TO CITY

Schonberger Case in Supremo Court-Railroads to Carry Libraries Free.

Hookworm in Virginia has attained a distressing and unexpected prevalence, according to the Department of Public Heath, this condition being disclosed through the department's relence, according to the Department of Public Heatts, this condition being disclosed through the department's recent epidemic work. As was announced in the September Builetin, scattered cases of hookworm had previously located in the State, chiefly in the Tidewater section Under the direction of the department, J. A. Waddill was appointed to make a further investigation of the disease and to report upon some suspected cases, of hookworm in the foothills of the Blue Ridge. Mr. Waddill's report shows that there are a number of communities in the State where the disease is very prevalent. The work will be continued as rapidly as possible until the prevalence of hookworm is accurately determined.

The situation disclosed by the work of Mr. Waddill, says the department, should not be ignored by the profession and public in Virginia. It is highly probable that the disease which has wrought such disaster in States farther South may be widely present in this State. For this reason, all doubtful cases should be carefully examined. As heretofore announced, the Health Department will make free examination of all suspected cases upon the request of any person.

Containers for shipping specimens may be secured from the members of local boards of health, or, upon receipt of 7 cents postage, from the offices of the State Health Department in Richmond. The diagnosis of hookworm is generally easy with the microscope, and its detection frequently means not only the cure of the Individual, but the escape of the community from a disease which is at least, says the department, unnecessary.

Libraries Will Be Carried Free.

Libraries Will Be Carried Free.

All the railroads running out of Richmond, as well as the other principal connecting roads of the State, have just consented to haul the traveling libraries of the State Library free of charge. This concession was secured through the efforts of State Idbrarian If. R. Mellwaine, who will thus save the State from \$25 to \$30 per month in freight charges. The saving will be greater from time to time, for the traveling libraries are constantly growing in popular favor.

### CITY GETS WRIT OF ERROR

Court Grants Writ in Schon-berger Damage Suit,

Supreme Court Grange Suit.

Yesterday in the Supreme Court of Appeals a writ of error was granted to the city of Richmond and William E. Fletcher from a judgment rendered July 1, 1999, against them in the Circuit Court of the city of Richmond in the suit for damages brought by Marie E. Schonberger, who sued by her father and next friend, R. O. Schonberger. The plaintiff in the lower court claimed that she had been permanently injured by a fall in the street at Louisiana and Eighth Streets, in Fulton, over some stone blocks which had been left standing some few inches above the level of the flagging, as a result of street improvements. The jury gave her a verdict for \$3,000 damages.

Bond in the appeal was fixed at \$4,-

### Bad Breath From Stomach and Catarrh

Many Persons Are Victims of This Disagreeable Complaint.

Many Persons Arc Victims of This Disagreenble Complaint.

It is quite common to hear of persons being spoken of as thoroughly agreeable companions, highly entertaining in conversation, fascinating and attractive in manner, grited, well-read, accomplished and possessing all the attributes and qualifications necessary to make them desirable guests at parties and entertainments, but for the single fact that, for some cause or other, such as atomach trouble, decay of teeth, or throat and nasal catarrh, they are the unfortunate possessors of had breath. That one drawback is sufficient to make them almost universally shunned, and no matter how erudite or scholarly they may be, how much they may have trayeled, or how large a fune of interesting anecdote they may have acqualled, and which they may be capable of relating in an entertaining manner, the fact that they are victims of offensive breath causes every other consideration to be set aside by their friends.

consideration to be set aside by their friends.

This is indeed unfortuate and it has been the means of causing many a person to avoid society and social intercourse, because realizing as they do how disagreeable it must be to others, and wishing at the same time to avoid embarrassment and criticism, they are left with the only alternative of remaining off to themselves, and being deprived of many of the pleasures of life.

Such a deprivation is, however, whole.

maining off to themselves, and being deprived of many of the pleasures of life.

Such a deprivation is, however, wholly unnecessary, and persons who have long been troubled with foul breath from any cause, should know that there is a remedy for its relief, one which is a powerful absorber and remover of foul gases from the stomach, and an efficient oxidizer and purifier of offensive breath, whether from stomach or teeth, or caused by catarrh—and that insily celebrated remedy is STUART'S CHARCOAL LOZINGES.

Thousands of persons testify to the fact that though they were once victims of bad breath, which commelled them to avoid the commanionship of others, they are how able to mingle freely with their friends, to attend entertainments, parties and the theatre, and to enjoy life generally happy in the thought that through the use of Stuart's Antisentic Charcoal lozenness their breath is rendered sweet and pure, and cannot give offense to even the most fastidious nersons.

These wonderfully nurliving lozenges, which are commosed of the purest charcoal, and made from willow wood, will sweeten the foulest breath, nurity the most impure stomach and besides stonning the fermentation and decomposition of food, will slee remove the only and send and German theese.

of the Medical Society of Virginia at Reanoke.

Dr. Williams reports that the conditions at the sanatorium are entirely satisfactory, and that in fact some of the patients there are already being discharged as cured, despite the fact that cures are necessarily slow.

Public health conditions throughout the State are gratifying to the department. There is very little serious illness.

Inspector-General Jo Lane Stern has completed his round of inspection of the Virginia Volunteers throughout the State, and is now compiling his annual report. It will be ready for presentation to the Adjutant-General within a few days.

Contract for Walkway and Permanent
Repairs Given John T. Wilson.
John T. Wilson, general contractor,
of this city, has been awarded the contract for making repairs to the Northside viaduct, which extends from the
north and of Fifth Street, in Richmond, to Chestnut Hill and Highland
Park and which was ant out of com-

mission during the past week, one of the metal supports having been strucked by a shifting coal car in the yards of the American Locometive Works, beneath, wrecking an entire span of the bridge.

Mr. Wilson's contract calls for the erection of a wooden walkway at the earliest possible moment, and the reconstruction of the wrecked span in a condition stronger than it was before the accident. The walkway will probably be opened in a few days, but a week or more may elapse before the metal parts can be assembled for renewing the span and the ultimate test. Ing of the entire bridge. Meanwhile a 'but line is being operated by the Virginia Rallway and Power Company, along Seventh and Hospital Streets, connecting with the cars of the company at each end of the bridge, on while no one except workmen are allowed to venture.
